# Meet Margie!

**Akita Mix** Spayed: Y Shots: Y Gender: F

Meet Margie! This young Akita mix is looking for a true forever home. It has been a long road for this sweet girl. Pregnant and ready to have her puppies, Margie lost her first home in a house fire. The puppies were born and they all found families of their own, but Margie is still patiently waiting her turn at the shelter.

Margie is still learning to trust people and to seek affection from them. As a result, she is a bit timid when you first meet her. But give her some time and you'll get to see the fun loving, affectionate girl that we have come to love. True to her breed, she is a bit selective of her canine companions, but she might be willing to share a home with the right dog.

If you would like to make Margie's dream come true and give her the forever home that she has longed for, come see her at the shelter! Or, contact her adoption consultant, Barb, at **440-427-9601** for more information. Margie will make a loving companion for some lucky family!
