# Meet Molly

Meet Miss Molly! This wonderful girl arrived at the shelter as a stray and is ready to find a forever home and family. And what a lucky family it will be! Molly is a mix of Staffordshire and Pit Bull Terrier and has charmed everyone she meets. Life has not been too kind to Molly up to this point, so she is a bit shy at first. However, if you give her a moment of your time, and a good scratch behind the ear, Molly warms up quickly. Before you know it, she is asking to be petted! This girl is convinced that she's a lap dog too! And who could deny a dog with that beautiful chocolate coat, sweet face and gorgeous smile?

While Molly is a bit timid around people, she seems pretty comfortable around other dogs. So, she might be willing to share her new home with a canine sibling! She is also working hard on her leash manners and is sure to be a pro in no time. With a little time, understanding, and lots of love, Molly will realize all of the good things life has to offer. Now she just needs a family to give her that chance.

If you would like to give Molly her forever home, come visit her at the shelter or call her adoption consultants, **Greg and Lacy**, at **440-724-5791** or **[lacers422@gmail.com](mailto:lacers422@gmail.com)** for more information. Molly can't wait to meet her new family!
